### DETAILED ACTION

1. Amendment and response filed by applicants dated Dec. 6, 2006 have been entered and considered carefully.

Claims 7-12 have been canceled. Claims 1-6, 13-17 and newly added claims 18-20 are pending.

2. Claims 1-5, 13-15, 17-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

The amendment "with a heteroatom or a cyclic substituent" in the currently amended claims and dependent on this scope thereof are new matter. Please note that the descriptive support for the X1 is O compounds as delineated on pages 53-57 is that the alkylene chain is substituted with a cyclic alkyl or heterocyclic alkyl selected from tetrahydrofuran or tetrahydropyran wherein *one or more of the carbons of the spacer molecule is contained in the ring*, i.e. the limitation of claim 6.

Please note that a cyclic moiety substituted alkylene chain is one of the hydrogen on the alkylene chain is replaced with a cyclic moiety. The compounds of claim 16, for example are not cyclic moiety substituted alkylene spacer but alkylene spacer substituted with *a cyclic alkyl or heterocyclic alkyl selected from tetrahydrofuran or tetrahydropyran wherein one or more of the carbons of the spacer molecule is contained in the ring*. In other words, the linker structure are those wherein one or more of the alkylene carbon must be part of the cyclic system.

In addition, alkylene substituted with a heteroatom is structurally improper since heteroatoms have multiple valences, and only one of them is replacing the hydrogen of the alkylene chain, for example the substituents may be hydroxyl, alkoxy etc. not oxygen atom.

The amendments are considered being new matter. Removal of new matter is required. In re Russmussen 210 USPQ 325.

Art Unit: 1625

3. Claims 6 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
